CAREER OBJECTIVE

Certified cybersecurity engineer with hands-on experience across offensive and defensive security disciplines including red team operations, mobile and web application penetration testing, SIEM engineering, and threat detection.

EXPERIENCE

Trainee Red Team Engineer

2024 AUG – 2026 March

OREL IT (Pvt) Ltd.

- Performed in-depth mobile application penetration testing on iOS and Android platforms, including banking and Flutter-based apps, manually bypassed Root detection and SSL Pinning, and conducted reverse engineering using Ghidra, JADX, APKTool, Frida, and Objection.
- Participated in full-scope red team engagements targeting healthcare environments and assumed breach scenarios in enterprise networks, simulating real-world adversary tactics, techniques, and procedures (TTPs).
- Conducted black-box and white-box web application penetration tests on cloud-hosted and on-premises applications, including source code review to identify logic flaws and security misconfigurations.
- Leveraged threat intelligence platforms (IntelligenceX, Tracked, ParanoidLabs) to support OSINT-driven reconnaissance and attack simulation planning.
- Produced professional-grade penetration test reports detailing findings, risk ratings, and actionable remediation recommendations for client stakeholders.

Freelance Security Researcher & Bug Bounty Hunter

2024 – Present

- Acknowledged in the WSO2 Bug Bounty Hall of Fame (2025)

EDUCATION

Bachelor of Science

Specialized in Cyber Security
(3.42/ 4.00 GPA)

Sri Lanka Institute of Information Technology (SLIIT).

Colombo LK

2022 – 2026

Diploma in IT

Di-Tech Pearson Verified

E-soft Metro Campus

Colombo LK

2021

PROFESSIONAL CERTIFICATIONS

eMAPT (Mobile Application Penetration Tester)

eJPT (Junior Penetration Tester)

PTI (TryHackme Junior Penetration Tester)

ICCA (INE Certified Cloud Associate)

Publications and Disclosures

[CVE-2025-60880](#) – Responsible disclosure – coordinated with the vendor through the CVE program.

PROJECTS & RESEARCH

- **DNS Threat Detection and SIEM Integration:** Built an AI/ML-based DNS threat detection system integrated into an ELK stack, enabling real-time threat intelligence and automated alerting on malicious DNS traffic.
- **Honeypot Deployment and SIEM Integration – Microsoft Azure Sentinel:** Deployed a cloud-hosted honeypot on Azure to capture attacker behavior, integrated with Azure Sentinel for log correlation, alerting, and threat visualization.
- **AWS – SOC Implementation:** Built a cloud SOC environment by integrating Security Onion with AWS CloudTrail for centralized log collection, alert monitoring, and network security rule configuration.
- **Information Security Risk Assessment using OCTAVE-Allegro:** Performed a full-scale IS risk assessment for a real-world organization covering asset identification, threat profiling, and risk treatment planning, with a final prioritized recommendations report.

ACHIEVEMENTS

- [WSO2 Hall of Fame 2025](#) Bug bounty Program.
- CISCO Techno Entrepreneur Challenge 2025 (SLIIT) Merit Awards.
- SLIIT ISACA CTF Challenge 4.0 (SLIIT) – 2nd Rank.
- Manthra CTF challenge (NSBM UNIVERSITY) – 4th Rank.
- Codefest CTF Challenge (SLIIT) – Finalist

SKILLS

- Programming & Scripting: Python, Bash, JavaScript, C, C++, SQL, MySQL, PHP
- SIEM & Monitoring: ELK Stack, Elasticsearch, Logstash, Kibana, Azure Sentinel, Security Onion, AWS CloudTrail
- Cloud & Platforms: Microsoft Azure, AWS, GCP, Kali Linux, Windows, Active Directory
- Security Domains: Penetration Testing, Mobile Security, Web Application Security, Red Team Operations, Vulnerability Assessment, Reverse Engineering, Source Code Review, Threat Intelligence, DNS Security, SIEM Engineering, Log Analysis, Cloud Security, Risk Assessment, Network Security, OSINT, MITRE ATT&CK, OWASP
- Languages: English, Sinhala, Tamil
